**UNCONFIRMED REPORT**  
That Miss Stone and Madam Tsilka Are Both Dead.  
(Associated Press.)  
Constantinople, Nov. 28.—The report that Miss Ellen M. Stone, the American missionary, who was abducted by brigands and held for ransom, and her companion, Mme. Tsilka, are dead, is not confirmed. Previous similar reports have invariably proved to be without foundation, and it is supposed that the brigands are circulating such rumors with the object of exciting the friends of the captives in hope of exacting the full amount of ransom demanded.  
Again Reported Dead.  
New York, Nov. 29.—According to the Vienna correspondent of the World, a private telegram sent from Persia at 1 o'clock yesterday (Thursday) afternoon reports that the news had just been received that Miss Ellen M. Stone, the American missionary, and Mrs. Tsilka, her companion in captivity, have been murdered by the brigands, who kidnapped them September 3rd.

**Outbreak Among Highlanders in San Francisco's Chinatown—Two Men Shot While Asleep.**

(Associated Press.)  
San Francisco, Nov. 29.—As a result of a Highlander outbreak, two Chinese are dead, and two others mortally wounded lie at the receiving hospital. There were two murderous attacks, both in Chinatown. They were the culmination of a long-standing feud between rival Highlander associations.  
The men, who were killed outright, were shot as they lay sleeping in a bunk at 902 Clay street. Their names are Quay Lucy and Suey Duck. Lone Fook, better known as Little Lone, and Joe Do, are the other victims.  
Fook was shot four times as he was entering his gambling joint at 102 Waverly Place, accompanied by Do, who was his bodyguard. As Little Lone fell mortally wounded Do drew his revolver, but before he could use it he received a bullet in the neck.  
Shortly after the shooting the police arrested a notorious Highlander, who gave his name as Lee Do, on suspicion of having wounded both men.  
About fifteen minutes after the perpetration of this crime another occurred at 902 Clay street. Sergeant Donovan and Officers Tillman and McNamara ran to the place, and going upstairs they found Lucy and Suey Duck dead. Both had been shot while they slept on a bunk in a small room on the second floor.  
After the shooting a large squad of police was sent into Chinatown, and in a very short time the officers had arrested half a dozen Highlanders, who were heavily armed and bent on avenging the murder of Little Lone.

**The Home Secretary Says Lord Salisbury's Declaration Regarding Republics Has Been Contorted.**

(Associated Press.)  
London, Nov. 29.—In the course of an important speech at Croydon last night, the Right Hon. C. T. Ritchie, secretary of the state for home affairs, declared that Premier Salisbury's statement that "No shred of independence should be left to the Republics," had been twisted, and contorted in a way Lord Salisbury never intended. "It was not intended," said the secretary, "that the Boers should not have a representative in the government, or that we insisted upon unconditional surrender, except in the sense that we could not again offer the terms which had been rejected." If any general representing the Boers in arms, said the speaker, had made a proposition of peace on the conditions that the Boers should, in the course of time, have a representative in the government, he would have been satisfied such a proposition would be referred home by Lord Kitchener, and would form a basis for the conclusion of peace.  
"We desired a termination of hostilities," concluded Mr. Ritchie, "so that the Boer and British could live together in peace and amity, and the same extraordinary success which has attended the British administration of Egypt would be repeated in South Africa. If the Boers would only frankly acknowledge their defeat and ask for terms."

**CUBAN ELECTIONS.**  
Preparations Being Made for Polling Which Takes Place in February.  
(Associated Press.)  
New York, Nov. 29.—Among the passengers who arrived to-day, per Walmer steamer Monterey from Havana and Mexico, were Gen. Leonard Wood, Governor of Cuba, Mrs. Wood, Col. M. J. Dady and Sir William Van Horne, Gen. Wood said that he would proceed directly to Washington to report to President Roosevelt, and expected to return by the steamer sailing on Saturday, December 1st. He said he had expressed no opinion on the question of the annexation of Cuba. "This rumor was probably made," he said, "to effect the elections in Cuba, but nothing will come of it. Matters are quiet in Cuba, and preparations are being made for the coming election in February."  
Col. M. J. Dady says the city council of Havana, by a unanimous vote, gave him the Havana contract, and that he brings home papers showing that to be so.

Detroit, Mich., Nov. 29.—The list of victims of the Peninsular Injector Works boiler explosion will probably remain at thirty, two more bodies having been recovered. All the injured in the hospital are reported as making satisfactory progress towards recovery.

**A MYSTERY.**  
Bank of Liverpool Detectives Are Not Convinced That Larry Marks Committed Suicide.

(Associated Press.)  
New York, Nov. 29.—Is Larry Marks dead or alive? Difference of opinion on this point adds to the mystery of the big fraud on the Liverpool Bank. Scotland Yard still holds firmly the belief that Marks committed suicide, says a cable from a London correspondent to the World, but special detectives employed by the defunct Bank of Liverpool are continuing their investigations on the assumption that he still lives.  
As has been stated, a detective shadowed him aboard the boat from Boulogne, and on arrival at Folkestone informed Inspector Frost that Marks was sitting on deck apparently asleep, that he had walked around the boat, that when he returned Marks was gone. Two thorough searches of the boat failed to find him. Inspector Frost maintains positively that Marks did not land at Folkestone.  
The World correspondent says George Marks, a brother of the missing man, at the Adelphi. He was astonished to hear Larry committed suicide. "He had nothing to run away from," George replied, "but the worry and disgrace of the charge, I believe, drove him to it. He had nothing to live for."  
The captain of the steamboat says that if Marks jumped overboard at the time the French detectives say he disappeared, his body, having regard to the surf tide at the time, should be washed ashore in a day or two at Cape Grisniz. The French police are watching the coast in that expectation.

**OTTAWA BUSINESS MAN ACCIDENTALLY KILLED**

**J. W. McRae Shot Himself While Engaged Cleaning a Revolver for His Son To-day.**

(Special to the Times.)  
Ottawa, Nov. 29.—J. W. McRae, one of Ottawa's best known business men, accidentally shot and killed himself this morning. He was cleaning a Mauser revolver, but apparently did not know that there was always a cartridge in the Mauser barrel. The bullet struck him at the point of the chin and came out at the top of his head. Death was instantaneous.  
Mr. McRae was a prominent Conservative, and for years was president of the local Conservative Association. He was one of the original promoters of the Ottawa Electric Railway, and was president of half a dozen business enterprises as well as secretary-treasurer of the Canadian Railway Accident Insurance Co. He leaves a widow, three sons and two daughters to mourn his loss. He was about 60 years of age.  
Mr. McRae was a brother of Hector McRae, of Rossland. Deceased had just floated the Consumer's Electric Light Co. His son Jack was leaving to-night for the West, and he was cleaning a revolver, which belonged to his son, because, as he said, it was about the best words he said, "Jack wanted to take it with him."

**PLAGUE AT HONOLULU.**  
Two Chinese Have Been Found Dead in the City.  
(Special to the Times.)  
Honolulu, Nov. 29.—A passenger named Leven, who arrived by the Mission from Honolulu, says that a new outbreak of plague occurred there on November 19th. Two Chinese in different parts of the town were found dead, and the bodies were cremated. The health authorities considered it certain they died from bubonic plague, and the infected section has been quarantined. These are the first cases since the burning down of Honolulu's Chinatown a year ago. Afterwards the Chinese were removed to Pearl Beach, and afterwards returned to live in various parts of the city.  
An inquest is being held this afternoon in the case of the Marsh child, who was run over by a street car on Wednesday.

**FOREIGN ORDERS FOR COAL.**  
Philadelphia & Reading Company Will Accept No More at Present.

(Associated Press.)  
Philadelphia, Nov. 29.—No more foreign orders for anthracite are to be accepted by the Philadelphia & Reading Coal & Iron Company for the present. These have become so large, and so numerous in the last month that to supply them would seriously interfere with meeting the demand for home consumption. The foreign orders accepted last month will be filled as fast as possible. Present low rates on European port going vessels are principally accountable for the foreign demand. The rates enable the foreign consumer to procure for \$6.12 a ton, and agents of the Western railway of France say they are ready to offer for thousands of tons at this price.

(Associated Press.)  
Washington, Nov. 29.—The following cablegram was to-day received at the navy department from Captain Perry, of the Iowa:  
"Colon, Nov. 29.—Arrangements for surrender to-day of Colon and Liberal forces have been completed."  
Liberals Defeated.  
Washington, Nov. 29.—A cablegram has been received at the state department from Consul-General Gudgeon, dated Panama, saying that the Liberals have been defeated, and that the government forces are in possession of Colon.  
The Last Stand.  
Colon, Colombia, Nov. 29.—11 a. m.—The captains of the warships, with a large detachment of their respective forces, are now taking over the government of Colon from the Liberals, and will hand over the same later in the day to General Alban, commander of the Colombian government forces.  
Some insignificant fighting occurred at Bohia yesterday morning, where the Liberals made a last stand.  
After the conference here yesterday General Alban returned to Panama under a strong American escort. The town was quiet last night.  
The report that the Colombian gunboat General Pinzon had landed troops at Kenny's Bluff has not yet been confirmed. Gen. Francisco Castro was wounded in the engagement at Boca Vista.

**THE RAILWAY WRECK.**  
The Remains of a Number of Victims Will Be Interred To-day.

(Associated Press.)  
Adrian, Mich., Nov. 29.—It is believed that the last of the bodies recovered from the Wabash wreck near Seneca on Wednesday night and brought here, has been identified. Mayor Reynolds to-day received a telegram dated Sherman, Texas, saying: "Can you advise if Ann Upton, an old lady, with ticket sold to Chattanooga, Ont., was injured. (Signed) William Upton."

Mayor Reynolds wired back a description of the woman to Mr. Upton, and it is believed that the remains will be ordered shipped to Texas before the day is over.  
All the burned and blackened fragments of what were once human bodies have been placed in caskets, and will be buried this afternoon in Oak Grove cemetery. There are four caskets filled with the pieces.  
The coroner began an inquest this morning in the court house building.

## RAILWAY WRECKAGE SWEEPED BY FLAMES

### EIGHTY IMMIGRANTS KILLED IN MICHIGAN

#### Two Trains Collided and Large Number of the Passengers Were Crushed to Death.

Detroit, Mich., Nov. 28.—The collision on the Wabash railway, one mile east of Seneca, last night, entails a loss of life estimated from 80 to 100. The list of injured will probably reach 125.

Train No. 13, which, besides its regular coaches, had several filled with Italian immigrants, with two engines, westbound, collided under a full head of steam with train No. 4, eastbound, about one mile from Seneca. The eastbound train was known as No. 4, the Continental limited. It was a vestibuled train consisting of a baggage car, combination coach and sleeper.

The cause of the wreck was a misreading of orders by Engineer Strong of the Continental limited. The order, it is claimed, read "Pass at Seneca," but Strong understood it to read "Sand creek." The conductor of the train did not know the engineer had misunderstood the order, and supposed that his train was going on a siding.

The cause of the wreck was a misreading of orders by Engineer Strong of the Continental limited. The order, it is claimed, read "Pass at Seneca," but Strong understood it to read "Sand creek." The conductor of the train did not know the engineer had misunderstood the order, and supposed that his train was going on a siding.

Engineer Strong stated in positive terms to the Associated Press representative that the Continental limited was to pass the westbound No. 3 (the latter closely followed from Detroit) at Sand creek, said Strong: "I saw the headlight of the westbound four or five minutes before the collision occurred, but I supposed the train was sidetracked and was waiting for me to pass. The large powerful electric headlight made it impossible to see the exact location of the other train. My fireman and I both jumped from the right hand gangway."

Strong and the fireman were both hurled 300 feet, but although scratched, cut and terribly jarred, they were not seriously injured.

The immigrants and other passengers on the westbound were crushed between the splintered cars. The spot where the accident occurred is open country, with but one farm house nearby, and facilities for aiding the injured were entirely inadequate. As soon as the news of the disaster reached Superintendent Burns here, a relief train was dispatched to the scene with a score of more surgeons on board. Farmers from nearby and those who escaped from the wreck alive made heroic efforts to rescue the lost fortunate.

The conditions of the wreck was such that in the darkness it was impossible to render immediate aid. Immediately after the collision six of the cars of the westbound train, crowded with immigrants, burst into flames. The fire spread rapidly, forcing many in their attempt to crawl out of the doors and windows, thus hindering each other so that the bulk of them were unable to escape.

Six of the cars of the immigrant train were jammed together. The fire absolutely cut off the means of escape and the fire and the agonized shrieks of the poor unfortunates were appalling.

The immigrants who were lucky enough to get out alive from the last one or two immigrant cars were unable to speak English, and could give no idea of the number of the people that were in the cars. When the relief train arrived as many of the injured as could be carried were taken to Mount Pelletier, Ohio, Peru, Indiana and the hospitals at Adrian.

Developments after daylight dawned upon the horrible scene of wreckage did not tend to minimize or detract from the night's awful calamity. Most of the wreckage has been cleared from the track.

Some of the railroad officials assert that the number of dead will not exceed 50, but the number of corpses and bloody parts of human forms being collected seems to indicate enlargement rather than diminution of last night's estimate.

Considerable light was thrown on the cause of the disaster by the orders which conductor of No. 13 showed as his authority for proceeding past Sand creek. The order which was delivered to the train at Holloway road was as follows: "Order No. 82, trains Nos. 13 and 3—No. 4, engine 909 will meet No. 13 at Seneca and No. 3 engine 623 Sand creek. Engine No. 88 and 151 will double head No. 13."

## TSILKA'S APPEAL

Asks For Assistance to Secure Release of His Wife and Miss Stone.

New York, Nov. 27.—"I have no idea where my wife and Miss Stone are now," said Gregory F. Tsilka, Sofia, to the correspondent of the World. The husband of the American missionary's companion in captivity by the brigands is in a state of wretched nervousness and apprehension.

"I have not heard from my wife since October 27th. I believe that she and Miss Stone are well, but they are suffering acutely from the great cold and the storms in the mountains. I do not expect under the present circumstances that they will be released for many weeks."

Mr. Tsilka has made a passionate appeal to the state department to do something definite with either the Turkish or Bulgarian governments for the rescue of the captives.

## BRITAIN AND STATES.

Lord Lansdowne on the Canal Negotiations.—South African War.

London, Nov. 28.—The Marquis of Lansdowne, secretary of state for foreign affairs, speaking at the extraordinary meeting of the House of Commons, referred to the extraordinary kindness of the competition for the world's markets as affording reason for the greatest precaution in questions of foreign policy.

With reference to the Isthmian canal negotiations, Lord Lansdowne expressed himself as happy to be able to say that a new chapter had been opened. Both governments were at this moment engaged in fresh negotiations concerning which he could only say the omens seemed propitious.

"Through the negotiations," continued the speaker, "the question has been discussed on both sides in no narrow or one-sided spirit, but with a genuine desire on our part that this great enterprise should be conducted to a successful end, that the principle of free navigation of the canal for which we have contended should be maintained, and that these objects should be achieved under conditions honorable and convenient to both sides alike."

Lord Lansdowne made hopeful reference to the South African war. He protested against the misrepresentations of the pro-Boers.

WILL USE STEAM.

Trolley System Between Mount Holy and Burlington to Be Abandoned.

Philadelphia, Pa., Nov. 27.—The Pennsylvania Railroad Company has given formal notice of the permanent abandonment of the trolley service between Mount Holy and Burlington, N. J., and substituting steam. The determination of the Pennsylvania officials indicates that electricity as a motive power for steam railroads has not proven satisfactory.

THE JOEY GIRL

Often changes to the jaded woman. "I can't see what's come over Mary; she used to be such a jolly girl," was the remark of a young woman visiting a married schoolmate. Marriage changes a woman. The drains and drains are so often the sequence of marriage. It robs her of all vitality. Give her back her former strength and she'll be as "jolly" a wife as she was a maid.

Women strong and sick women weak. For two years I have suffered from chronic disease and female weakness," writes Mrs. Allen A. Robson, of 125 Rodman Street, Philadelphia, Pa. "I had two different doctors and they gave me medicine which only relieved me for a time. My niece advised me to take Dr. Pierce's Favorite Prescription. I concluded to try it, and to my surprise it cured me. I feel like a new woman. I find that after taking six bottles of Favorite Prescription and following your advice in regard to local treatment, I am now a strong woman. ## LUMBERMAN'S DEATH.

Young Man Killed and Eaten By Wolves.—Joseph Patton Acquitted—Two Sudden Deaths.

Montreal, Nov. 28.—News reached here today from Gilmour and Houston's lumber camp, Bark Lake, on the Gatineau, of the awful death of a young lumberman named Edward Connor, 18 years of age. Connor came into the camp as usual on Tuesday evening, leaving his axe standing by the stump of the last tree he had felled. During the course of the evening he came to the conclusion that the axe required grinding, and accompanied by another man, set out to fetch it. A short distance from the camp Connor had left the axe, his companion concluded not to go any further, agreeing to wait until Connor returned. The latter had been gone but a short time when the companion heard the howling of wolves. In dismay he at once started on the run for the camp, forgetting all about Connor. When he reached the camp, some distance off, a number of men started out to look for Connor. They were too late. A lot of bones scattered around, some which had once formed his clothing and his boots were all that remained of the young man.

Acquitted.

Perry Sound, Ont., Nov. 27.—Joseph Patton, charged with the murder of five children, was acquitted at the assizes here today. His house was burned last April and the children perished. Suspicious circumstances led to his arrest. The grand jury found the evidence insufficient and returned a bill.

Died Suddenly.

Halifax, N. S., Nov. 27.—Two sudden deaths occurred in Truro, N. S., today. Mrs. Geo. McLaughlin, wife of a commercial traveller, was taken with convulsions and passed away soon after.

At noon Maud S. Camble, a young woman, entered Buckle's store, where she fell in a faint, and died before medical aid could reach her.

Accidentally Shot.

Stephen Doyle, a laborer, aged 59 years, was accidentally shot and killed in the woods this afternoon by David Klime, who was hunting partridges.

Patient's Death.

Toronto, Nov. 27.—James Fields, of Milton, died while undergoing an operation at the Western hospital today. He was under the influence of an anæsthetic, and towards the end he collapsed suddenly and expired almost immediately.

Alleged Bigamy.

Joshua W. Curtis, 750 Dover Court road, and his alleged wife, late of Port Perry, were arrested this noon on the charge of bigamy, preferred by a brother of the woman. The case is parallel with that of Earl Russell in England, and Minnie G. Woods in Canada, in both of which the divorce laws of the United States were not recognized.

Traveller Missing.

Stratford, Ont., Nov. 27.—News was received in St. Mary's by Geo. Spearin, that his son, John Spearin, traveller for a Kamloops firm, has not been heard from for a long time, and foul play is suspected. His relatives will make inquiries into the circumstances.

Imperial Defence Duty.

St. John, N. B., Nov. 27.—At a meeting here to-night, which was addressed by Col. Denison, of Toronto, on Imperial defence, a resolution was passed favoring the imposition of a special duty of five to ten per cent. at every port in the British possessions on all foreign goods, the proceeds to be devoted to Imperial defence.

VICTORY FOR LIBERALS.

Colombian Government Troops Retreated After Heavy Fighting Yesterday.

Colon, Colombia, Nov. 28.—In a fierce battle today the government forces were defeated. The government troops, 300 strong, under Gen. Alban, reappearing at Buena Vista, this afternoon, opened fire on the Liberal forces under Col. Barrera. The latter were not intruded, but having the choice of ground, occupied the top of a small hill at Buena Vista.

The fighting, which was of the most savage nature, lasted until 5.30 p. m. without stopping, when the government forces, owing to the great loss they had sustained, were compelled to give way, and retired toward Forjoles.

It can be said upon the best authority that the Liberals will surrender Colon tomorrow to the government authorities. United States marines guard Colon to-night. Many unreliable statements are current on shore, but the only men information in this regard refuse to answer questions. Colon is quiet, but much anxiety prevails.

## HEAVY FREIGHTS FROM THE ORIENT

### GLENOGLE ARRIVES WITH LARGE CARGO

#### Topoka Will Be Fitted To-morrow, and Hating Towards End of Week—Other Shipping News.

There arrived from the Orient this morning on the Dordwell liner Glenogle 200 tons of general merchandise for local merchants and 2,500 tons for points in the United States. Included in the big freight are 300 bales of silk for New York.

The steamer passengers numbered 19 Chinese and 2 Japanese for Victoria, and 10 Chinese and 5 Japanese for the American side. C. E. Richardson, a representative of one of the Puget Sound flour mills, was the only passenger. He had been over to Hongkong and is now going to Seattle on business. Just before sighting land heavy weather was encountered, but the ship rode out the gale without mishap. She and the freighter, with the big cargo, Georgia, were to ply between Liverpool and Sydney as a railway ferry, were the only arrivals this morning. The Georgia brings 500 cases of salted salmon for transshipment to the Orient.

Out in Equatorial work is progressing rapidly on the ships undergoing repairs. The City of Tokyo leaves the dry dock to-morrow night, and will sail for the north on the 2nd, to be followed by the Cottage City, receiving repairs on the Sound on the 4th. The Hating will be launched from the Equinault railway towards the end of the week, while the warships the principal activity centres aboard the flagship, which is coal and otherwise preparing to sail for the island of the Philippines. It is not expected that anything will be done towards repairing the Sargent until after the arrival of one of her owners, now said to be on his way north from San Francisco.

A SERIES OF MISHAPS.

A number of marine accidents were reported from Australian waters by the Mowera mail. On October 30th the Boverie and Cloncurry, both well known steamer traders, came into collision at the entrance to Port Jackson. The Cloncurry had on board a ship that was carrying a quantity of rubber. The Boverie, from Adelaide, was loaded with rubber. The Cloncurry crashed into the Boverie bow on, and tore into the latter vessel's plates, leaving two gaping holes in her side. Two steam colliers, the Helen Nicoll and the Wallen, were outward bound at the time of the accident, and being in the vicinity, were ordered to render assistance.

Happily, it was not required.

The four-masted bark Crocodile, from Liverpool, was towed into Port Jackson, and reported a stormy passage across the Southern ocean. The bark being staunch and well-found, passengers to come through the stormy weather without injury, but the captain reported the loss of two of the crew as a result of the rough experience.

The Sydney underwriters have received advices by the Cape mail of the destruction by fire of the bark Manasse, a vessel having a cargo capacity of 1,500 tons. Save one voyage to St. Michael, the Manasse has seen little service for eight or nine months. Since her return from Alaska she has been tied up. Yesterday she was alongside the Union wharf, and as soon as she was secured a crew and have her stores put aboard she will proceed to the execution of her charter.

REPORT VERIFIED.

Confirmatory of the news published in Wednesday's Times, the Seattle Post-Intelligencer says: "The British steamship Manasse, chartered by Capt. E. E. Cairne and associates, has a six-months' charter to transport ore from the Nahmint, a copper mine on Alhambra Island, Vancouver Island, to Tacoma, B. C. The vessel, which calls for the transportation of 2,500 tons monthly, was entered into Tuesday by Capt. Cairne and the Nahmint Mining Company. To do this the Manasse will have to make three round trips every 20 days between Alhambra and Tacoma, the vessel having a cargo capacity of 1,500 tons. Save one voyage to St. Michael, the Manasse has seen little service for eight or nine months. Since her return from Alaska she has been tied up. Yesterday she was alongside the Union wharf, and as soon as she was secured a crew and have her stores put aboard she will proceed to the execution of her charter."

COASTING STEAMER BUILDING.

Interviewed at Vancouver, George Sharpe, representative of the Pacific Steam Navigation Company, who was in Victoria early in the week, relative to establishing business connections here for his line of ships, said: "There are four steamers now under construction in Glasgow, three in the yards of the Fairfield Company, and one in those of the C. A. Y. L. D. Company, and these will be operated by the Pacific Mail Steamship Company on this coast when completed. The boats have all been given Western names, and are respectively the Pacific, the California, the Mexico, while that of the fourth has not yet been decided. We are at present in doubt as to whether we will call it the Vancouver or the Victoria. The steamers which the company proposes to put on the route when the essential is concluded, will be the magnificent specimens. They will be completed in May or June of next year, and will be put in operation as soon as possible."

MARINE NOTES.

Steamer City of Puebla will be due from San Francisco to-night, while the Unatilla will be the ship leaving for the Golden Gate to-morrow evening.

After seeing two of his feet away for the seal hunting grounds off the Shetland and Falkland islands, Capt. S. Balcom has returned from the East.

On Wednesday evening at the residence of the bride's parents, Samuel Houston, of Oak Bay, and Miss Mary Porter, daughter of Mr. and Mrs. Thos. Porter, of George road, were united in the holy bonds of matrimony. There was a large attendance of guests, and the happy couple were the recipients of many handsome presents. The ceremony was conducted by Rev. A. Fraser.

A delegation consisting of Senator Macdonald, W. Humphrey, A. B. Fraser, Mr. T. N. Hibben, P. Paulsen, T. M. Henderson, W. J. Pendray, J. Pendray, J. E. Church, P. Hickey, R. Hall, M.P.P., J. Shalcross, B. Oddy, J. Sehl and John Pelletier, waited on the mayor on Wednesday afternoon and requested him not to sign the contract for Point Ellice bridge till petitions now in circulation should reach him. His Worship promised to withhold his signature till Monday night, at least, observing that he felt confident citizens generally did not approve of the council's course.

At Strawberry Vale Mr. Monk, who, much to the regret of the residents of the neighborhood, has resigned his post as schoolmaster, which he has held since the school opened, some eight years ago, was on Wednesday pleasantly surprised by being presented with a handsome ebony dressing case with silver trimmings by his pupils. The presentation was made by Miss Sarah Barker, one of the scholars, who read an address, to which Mr. Monk responded suitably, saying how very sorry he would be to leave them. Mr. Monk is leaving Victoria for England, where he hopes to arrive about Christmas.

The remains of the late Tom Kains were laid to rest at Rose Bay cemetery yesterday afternoon. The funeral took place from the family residence, Dallas road, and later from the St. James church. There was a large attendance both at the church and grave, and many floral designs were presented by sympathizing friends. The service at the church, which were of a very impressive nature, were conducted by Ven. Archdeacon Scriven, assisted by Rev. J. H. S. Sweet. The employees of the lands and works department, as well as the officials of the other departments of the provincial government, attended the funeral. The following were the pallbearers: Messrs. W. S. Gore, C. Roberts, W. Atkins, Capt. Mitchell, T. E. Woolridge and T. B. Hall.

The Winnipeg Telegram says: "Feix Labelle, contractor of Montreal, who built the Chateau Frontenac at Quebec, and the Hotel Viger, Montreal, with D. Oumet and J. B. Grafton, have just returned from a trip through the Coast, in connection with the C. P. R. hotel to be built at Victoria. This trip have just returned from Victoria, where they have been looking over sites and making investigations preparatory to tendering for a \$500,000 hotel at Victoria. This new move looks as if the C. P. R. was making a strong bid for increased trade on the Island. The new hotel, when completed, will be about the size of the Place Viger establishment. Improvements have also been made to the Vancouver hotel, and a 250-foot addition has been made to the Banff hotel. Nothing is known locally of the matter."

A meeting of the Fraser River Cannery Association was held at Vancouver on Tuesday to consider the advisability of continuing the work of the organization. A decision on the matter was at once reached by a unanimous resolution, supporting the existence of the association, and a committee of seven was appointed to draft a new agreement to be signed by the members of the association, and to be brought before another general meeting to be held on the 10th of December. Discussion took place on the wisdom of reducing the number of boats, and if this is done, it would of course necessitate limiting the number of canneries to be operated during the following year. The matter was to be further considered at a meeting of the executive of the association held at Vancouver this morning.

James Bay Methodist church held an entertainment on Wednesday evening in the church, at which the offering was very gratifying. The programme rendered was as follows: Song, Deans Spencer; reading, Daniel Sprinkling; song, Miss Bertha Pick; recitation, P. Schroeder; song, Mrs. H. Ware; reading, Miss Bertha Pick; duet, Misses Morris and Winkel; song, Miss Withers. Refreshments were served after the programme.

This morning, under the direction of the board of health, the torch was applied to the shacks contiguous to the old Methodist church. Chief Watson had a few men on duty to prevent the spread of the flames to adjoining buildings.

The members of the Epworth League of Victoria West Methodist church gave an entertainment in the church last evening. There was a fair attendance, and a very meritorious programme of music was rendered. Dr. Lewis Hall occupied the chair.

In Wednesday's issue it was stated that the Bank of Commerce was a creditor of Thos. Earle. This was an error. Mr. Earle does not owe the bank a cent. To-day several minor assignments took place as a result of Mr. Earle's failure, namely, the Claycoot Fishing Co., Alfred Maigneen and W. A. Jamieson, grocer.

Col. Holmes has received the distinguished service order decoration for presentation to Lieut. Leckie, who was a member of one of the Canadian contingents. The decoration is in the shape of a Maltese cross in white enamel and gold, a laurel wreath in the centre encircling a gold crown. On the reverse side the wreath encloses the letter V. R. L. artistically arranged. The bars are of gold, and the ribbon purple and blue. The decoration is very artistic and handsome, and will no doubt be prized very highly by Lieut. Leckie.

W. J. Dowler, city clerk, is busy taking a census of the different manufacturers of the city on behalf of the Canadian Manufacturers' Association. The object is to ascertain what industries are on the increase or on the decrease in Canada. Mr. Dowler will send the results of his work to headquarters, and the census of the whole Dominion will be handed to the government, the same operation having been gone through in other provinces. The object of the association in taking this step is to enable the government to see what industries need to be aided and in what way. Great interest is being taken in the movement throughout Canada.

An assault-at-arms, under the auspices of the Victoria Athletic club, will be given in the Philharmonie hall, Fort street, on Saturday evening. An excellent programme is being prepared to consist of chess, boxing, tumbling, clog dancing, singstick, contest for points, horizontal bar exhibitions and illustrations of scientific boxing. One of the attractions of the evening will be a ten-round glove contest between Jack Spence and E. Kibby, of H. M. S. Weymouth, for a gold medal to be presented by the Victoria Athletic Association. Bantley's orchestra will discourse music during the evening, and a good entertainment is assured.

Last evening members of Emmanuel Baptist church celebrated Thanksgiving Day with a banquet and concert, at which there was a large attendance. The dinner certainly did great credit to those responsible for the arrangements. Rev. J. G. Hastings presided, and gave a very comprehensive and interesting address, tracing the origin of the observance of a thanksgiving day in America. Several other speeches were given by prominent members of the church, including Messrs. Huggatt and Marchant. The former, who has gained a general reputation as an eloquentist from his excellent reading of one of Rudyard Kipling's a recitation. A thanksgiving offering was taken up during the evening.

## HOSPITAL FANCY DRESS ASSEMBLY

THE MOST ENJOYABLE  
OF THE WHOLE SERIES

A Brilliant Scene at the Jubilee Ball  
Last Night—Cinderella Dance  
This Evening.

It is no reflection upon the success of previous balls given by the Woman's Auxiliary of the Royal Jubilee hospital to say that last night's ball was the greatest success of the series. This is the twelfth occasion upon which the ladies have provided this pleasing form of entertainment, and on each the results have been equally happy to the guests who enjoyed their hospitality, and the hospital whose coffers are swelled by the receipts therefrom.

The Assembly hall leans itself readily to artistic decoration, and this fact was taken advantage of to the full by the energetic committee which had in hand this part of the preparation. The ladies, augmented by a corps of blue-jackets, had employed ensembles, bunting, signal flags and other similar devices, and the result was a blaze of harmonious coloring, which made of the ample hall a veritable fairyland.

The decorations in the ballroom were described in a previous issue of the Times, and being similar in character to that employed at previous balls, require little description. In fact so extensive were they that no description could do justice to their delightful character.

The supper-room too had received the most careful attention, and was draped in the quiet but effective hues which have in the past made this room so attractive, apart from the magnetic attraction to the lived dancer of a supper-room. Cozy little sitting-out rooms had been provided at the corners, and delightful bowers from which peeps of both the supper-room and of the floor could be obtained by those temporarily weary of the dizzy mazes of the dance.

The ball was taken advantage of by a very large number of citizens, its enjoyable character as one of the social events of the season and the philanthropic object for which it was gotten up combining to attract to it a large number of people. The floor was in excellent condition and the music, furnished by Finn's orchestra, of the best. With these elements and the brilliancy of the surroundings, it is little wonder that many found it impossible to tear themselves away from its delights until an advanced hour this morning.

A great number of the dancers took advantage of the privilege of fancy dress, and the result helped to contribute to the brilliancy of the scene. Court dresses in both gentlemen and ladies found general favor, while national, military and comic characters helped to complete the picture.

The floor committee was made up of the following: Messrs. Cuyler Holland, H. D. Helmeke, Joshua Davies, B. Gordon, and Mrs. Llewellyn Jones, Hermann Robertson, Edward S. Hasell and P. B. Handyside, R. S.

The reception committee comprised: Mrs. Cuyler Holland, Mrs. A. J. Smith, Mrs. Locke Robertson, Mrs. D. M. Eberts, Mrs. E. G. Tilton, Mrs. Charles Rhodes, Mrs. Albert Griffiths and Mrs. C. E. Redfern.

To-night in the same place the Cinderella ball will be given. The floor will be given to the show of flowers between the hours of seven and ten, and those who know of the delightful nature of these juvenile dances will look forward to it with as much anticipation as to the ball proper last night. After ten the "grown-ups" will have the floor. Last night's ball was under the patronage of His Honor the Lieutenant-Governor and Lady Joly, Rear-Admiral A. R. Bickford, C. M. G., and Mrs. Bickford, Col. Grant, R. E., and officers of the Fifth Regiment, and His Worship the Mayor.

### AT THE PLAYHOUSES.

"The Devil's Auction" To-night—Peje Storck Coming to Victoria.

"The Dance of the Elements," the new electric sensation, which Manager Chas. H. Yale purchased outright from its inventor, Mr. F. W. Hamilton, and presents solely with his spectacle, "The Everlasting Devil's Auction," has proven to be quite a novelty. Its paraphernalia is most elaborate and intricate, and is developed by a number of dancers, who, in most attractive costumes, dance and pirouette amid real rain and snowstorms, showers of gold and other unusual effects. A new effect has been added for the present season in a shower of flowers, and this, with the introduction of a number of new novel ideas in electric lighting and a multiplicity of harmonious colorings, aided by special scenic investiture, forms in its entirety a most unusual theatrical offering. "The Devil's Auction" comes to the Victoria theatre to-night.

Peje Storck. Of the above pianist who appears here next week, La Libre Critique, Brussels, says: "Peje Storck, the powerful and well known pianist, possesses at the same time both feeling and modesty. He is elegant without being over-fastidious. His position at the piano is simple and dignified. These remarks are, however, superfluous, they have nothing to do with his real great talent, which has already been discussed so many times in our columns. In addition to wonderful firmness and power, Mr. Storck has an exquisite delicacy of touch that one might well call velvet. His interpretation of the great masters is always highly original and sympathetic. His technique is irreproachable. He shows a refined taste for modern composers, a marked preference for Beethoven and in the realm of purely pianistic music he favors Liszt and Chopin. "He began his musical studies at the

Conservatory of Stockholm, under a pupil of Liszt, and obtained the medal after several years study. In 1889 he entered the Brussels Conservatoire in the piano class of that most excellent professor and celebrated pianist, M. de Greef, whose appearance in London a year ago excited great attention, and who will doubtless soon be as well appreciated there as in Paris. After only one year's study, M. Storck took a brilliant second prize, and in 1891 obtained the first prize with the greatest distinction by unanimity. It is doubtless due to his own talents that M. Storck, beginning so late, became so accomplished a pianist. He has qualities which are rarely united in one person, namely, great force, mechanism and sentiment, and while we admire the splendid tone he produces, we have been more surprised at the extreme delicacy of his playing and the refined and exquisite sentiment with which he renders Chopin."

Black Patti Troubadours. The Black Patti troubadours, announced to appear at the Victoria theatre Monday evening, will present among other pleasing novelties their new musical comedy skit, "A Filipino Mischief," with John Tucker, the "Alabama Blossom," in the leading comedy role. This is said to be an uproariously funny creation. Black Patti will also appear in a new musical act called the "Songs of Uncle Land," assisted by the entire singing forces of the company. This accomplished singer will also appear in the new operatic finale, always one of the standard features of the performances. Other new features are the march of the "Mack Allen" on the black wire; the "Yankee" in monologue; the troubadours quartette, in the latest ballad successes, and the genuine gold medal prize cake walk contest.

The Grau Opera Company. What the public want is at last coming. Grau's opera company, with a lot of five nights' engagement at the Victoria theatre on Tuesday next, with the finest cast of artists and the strongest chorus ever heard here in comic opera. "El Capitán" will be the opening opera, with a cast that has never been equalled in this city. The company is a first-class theatre on Tuesday next, with the finest cast of artists and the strongest chorus ever heard here in comic opera. ## Mining News

The Lardau. Messrs. Daney and Bell have signed a contract with the Silver Cup people to take out this winter one thousand tons of ore. Two hundred tons of this will be delivered at the Landing, the balance, eight hundred tons, will be stored at Trout Lake. This contract binds the company to ship this quantity of ore and already they have 400 tons stacked at the mine.

Pat Hoffman is making good progress with the work on the Keystone, a property owned by the Twin Falls Mining company, and this month intends to send out a test shipment of several sacks to the smelter. He is now in about 30 feet with the tunnel and has about five inches of clean ore heavily charged with gray copper.

The returns from the small shipment of Linson View ore made a month ago are to hand and give a net return of \$56.89. The shipment weighed 808 pounds and the assay value at the smelter was \$21.20 ounces per ton and 12.8 per cent lead. The contents were 113.20 ounces silver and 107 pounds lead. The former valued at 57½ cents per ounce gave a total of \$61.79, and the latter valued at \$1.43 per hundred weight gave a total of \$15.38. The value of the whole shipment was \$63.17, less \$6.28 for freight and treatment gave a net result of \$56.89, for which a cheque was issued to the owners, Messrs. P. A. Lindgren and Martin Nelson. In the above payment was made for 95 per cent of the silver and 90 per cent of the lead. The percentage of moisture was very low, being only 8 per cent. At the basis of value furnished by the smelter returns a ton of Linson View ore ought to give a net value of \$127.50 per ton. No less than seven groups and four claims are affected by these returns, for the lead runs through them all, and on several of them it has been opened up and developed. On the Pedro

group of two claims adjoining the Linson View a tunnel has been driven 40 feet and has exposed a showing of nine inches of some of the richest gray copper ever seen in the camp. The Ruby Silver has one tunnel driven about 25 feet, in which is exposed a vein of ore two feet in thickness, which gives returns of \$50 in silver, copper and gold. On the same vein but higher up results have been obtained of \$100.00 in all values to the ton. This spring a tunnel was driven 80 feet toward the chute showing on the surface and when work was suspended ore in very encouraging quantities had begun to show up in the breast of the tunnel.

Two shipments have been made with in the last fortnight, one from the Ruffled Grouse and the other from the Horseshoe. The ore is from veins running parallel and a thousand feet or so distant from each other and aggregate about 15 tons. Both properties are remarkable for the richness of the ore contained within their boundaries, so it is likely that the smelter returns, when obtained, will establish a new record for the value of shipments from the Lardau. So far the highest is over \$300 to the ton and the lowest something over \$100.—Trout Lake Topic.

### HOW TO TREAT A TROUBLESOME CORN.

To remove a troublesome corn or bunion: First soak the corn or bunion in warm water to soften it, then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily; rubbing vigorously for five minutes at each application. A corn plaster should be worn for a few days, to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequalled. ELECTION TRIAL  
GOES ON MONDAYPROCEEDINGS IN THE  
COURT THIS MORNING

Judge Drake Refuses Costs to the Defendant in Rex vs. Nichol, Excepting in Last Trial.

The trial of the election petition, Fairfull et al. vs. R. O. Price and Thomas Earle, was opened before the Lordships, Mr. Justice Irving and Mr. Justice Martin, in the Supreme Court at 11.45 this morning. Gordon Hunter, K. C., and with him L. P. Duff, K. C., represented the petitioners; Robert Cassidy, K. C., appearing for the respondents.

Before any evidence was called Mr. Justice Martin stated that as the trial was formally fixed for to-day he had taken his seat in order that the rules requiring a petition to be tried before two judges could be complied with, but that because of an injury he had lately sustained he was physically incapacitated from attending court for more than a short time. He had understood from counsel, however, when the application to fix the date of trial had been made before him, that this date was fixed only as a formal compliance with the order of Mr. Justice Walker, ordering the petition to be tried within six months, and that an adjournment would now be applied for. In view of the fact that two Assize courts would be in session next week, and that the December sittings of the court would open at the same time, he thought it inadvisable that this trial should now be proceeded with, as the act required that when once commenced an election trial should be completed without interruption. He had been misled as to the intention of the parties when he had set to-day as the formal date for trial.

Mr. Hunter pointed out that if the trial was not proceeded with now it would be impossible to have the petition tried before the next session of the Dominion parliament. He was prepared to go on now, and under all circumstances thought it imperative that no adjournment should be ordered. His witnesses, some 23 in number, had all been subpoenaed and were present.

Mr. Cassidy also stated that he was prepared to proceed, but that, as His Lordship did not feel able to act, his clients placed themselves unreservedly in the hands of the Court.

Mr. Justice Irving said that his brother Walker would probably arrive in the city this evening, and if so the trial might proceed to-morrow.

After consultation the Court ordered the trial adjourned till Monday next at 10.30 a.m.

Counsel for the respondents then applied for an order for better particulars, asking that he now be granted the usual order confining petitioner's evidence to the matters covered by their particulars as delivered, which term Mr. Justice Drake had refused in his order of Tuesday last. He pointed out that the particulars delivered this morning were in many respects indefinite, as, for instance, names of parties alleged to have been bribed, and particulars of amounts given not being stated. The petitioners had now two days further within which to supply these omissions, and he argued that they ought not to be given a roving commission, but should be confined to their particulars, which was an inflexible rule in these cases.

Mr. Hunter strongly objected to such order being granted, and the Court, after remarking that since Mr. Justice Drake had seen fit in the present instance to make a special order in place of the usual one, they could not sit in appeal upon him, but it would be no hardship upon petitioners to extend the time for giving particulars, ordering that such particulars as might be in possession of the petitioners should be delivered by Monday morning, when the case will come up for trial.

Mr. Justice Drake this morning rendered judgment in Rex vs. Nichol, an application as to costs. The effect of his judgment was to deprive Nichol of all costs excepting those of last trial. Defendant thus has to bear the costs of the two abortive trials and of the commission to England. It is understood an appeal will be taken.

In Chambers this morning before Mr. Justice Drake the following applications were disposed of:

Williams vs. Faulkner—Application to review taxation. J. H. Lawson for plaintiff; R. Cassidy, K. C., for defendant. No order made.

Fisherman's Claiming Co. vs. Wine On—Application for leave to sell land. Gordon Hunter, K. C., for plaintiff; J. P. Walls for defendant. No order made.

Macdonnell vs. Macdonnell Bros.—Application to postpone date of trial. J. H. Lawson for plaintiff; R. Cassidy, K. C., for application. Trial postponed till next sittings, costs of application to plaintiff in any event. Leave to apply.

Boyle vs. Victoria-Yukon Trading Co.—Application for judgment. Martin Griffin for plaintiff; J. H. Lawson for defendant. Stood over to 30th inst. by consent.

Re T. M. Parison, deceased—Application by A. D. Crease for probate of will. Granted.

## CHURCH EVENT.

Luncheon and Concert to Be Provided by the Ladies of the R. E. Church on Tuesday.

One at least of the many fixtures of next week is going to afford entertainment to a large number of pleasure seekers in our midst. The event in question is a sale of work, luncheon and concert in the Philharmonic hall under the auspices of the ladies of the Church of Our Lord (Reformed Episcopal) on Tuesday and Wednesday next, 3rd and 4th of December. Last year the bazaar held in the same place proved so successful financially and socially that the ladies then and there decided to make it an annual affair. This will doubtless meet with popular approval. The ladies offered for sale in the various booths are eminently suitable for Christmas presents. Further particulars will be announced through these columns before the day of the sale.

Luncheon on Wednesday between 12 and 2 o'clock will enable business men to meet at an ideal spot for discussing not only political and commercial views, but what is more to the purpose, a first class meal for a mere song. Twelve months ago 200 ladies and gentlemen sat down at the well provisioned tables, and there was no lack of the delicacies of the season. A concert is being arranged for the two evenings. It is known that Wednesday is set apart for the Arion Club concert, but still there are a sufficient number of friends of the church and the club to fill both halls.

## HAIDAH SAVAGES.

They Chewed One Another's Noses—Other Police News.

There were two sanguinary looking occupants of the prisoner's dock at the city police court this morning in Frank Eno and Tumely Jan, two brothers of the Haidah tribe. They lived together on Herald street, and last evening became engaged in a quarrel in which each attempted to abrogate the proboscis of the other. The result was two badly chewed nasal appendages, and blood and sticking plaster distinguished the two as they lined up this morning in front of the magistrate. Their case was remanded until the 30th to permit of the doctor's evidence being obtained.

A conviction was secured this morning under the Provincial Game Act of Geo. Cruickshanks, who was apprehended for discharging firearms in the harbor. He was fined \$5, or ten days' imprisonment.

The case of J. Whitehead, charged with vagrancy, was remanded until the 2nd, and a drunk paid \$2.50.

## DRILL HALL CONCERT.

St. Andrew's Day to Be Celebrated By Scotch Songs, Music and Dances To-morrow Evening.

To-morrow night will be "Scotch night" at the Fifth Regiment band promenade concert at the drill hall. Bandmaster Finn has arranged an excellent programme suitable for the occasion, the band members being strictly of a Scotch character, with the exception of the march, "Farewell Victoria," an original composition by Signor Fontanazza, chief bandmaster of H. M. S. Warspite, and dedicated to the people of Victoria. The band will be assisted by Miss Leslie MacDonald, Miss Maggie Hill, D. Kennedy and Arthur Salvin. The complete programme follows:

PART I.  
Selection—"Robert Bruce"..... Reeves  
Walters—"Edinburgh"..... Bonnesen  
Recitation—Selected..... O'Connell  
Solo for Piccolo—"Kilnch of Kilch"..... O'Connell

THE DAM IS EQUAL  
TO THE PRESSUREIT GAVE ONLY HALF  
AN INCH LAST NIGHT

Leakages and Drains Keep the Pumps Busy, But the Water Is Falling Steadily.

The prediction of pessimists that the work on James bay was going to prove a failure, inasmuch as the coffer dam would prove unequal to the task of resisting the pressure from the harbor, when the bay was pumped out, was effectively disposed of this morning when the onlookers saw the mud bottom of the bay behind the dam. This forenoon there was still some tidal water left in the bay which, together with that from the surface drains and the leakage from the dam, gave the pumps employment, but this was reduced at the rate of two inches an hour. Under present conditions the ten-inch pump will be quite equal to the task of keeping the bay clear of water.

As mentioned in Wednesday's issue, the coffer dam gave very little under the strain, and this morning an examination of her by the city engineer showed that instead of taking the latitude which she might have done with safety, of three or four inches, she had given only about half an inch, or only enough to tighten the stays.

The principal leakage arises from the water following the bolts, which were put in subsequent to the filling of the dam. Owing to the necessity of taking advantage of the pressure of the Dominion government dredge, the earth was piled into the dam prior to the bolts being installed. To place these in position an auger larger than the bolt had to be employed, and naturally the earth has not settled about these yet. This morning, however, by the use of a little oakum and blue clay, a great number of these were filled.

Another source of trouble is at the city end of the dam, where the rocks have been shattered by blasting and the insidious water finds its way into the empty space between the crevices. These are being stuffed with brush and clay, and should soon be filled.

The big pump is capable of handling 150,000 gallons of water an hour, but the 18-inch and 20-inch mains from Church Hill and Beacon Hill, not to speak of the five smaller mains from James Bay district, are capable of supplying that much when the rain favors, and hence the prayer of the city authorities for a few fine days.

As soon as the pump has reduced the water sufficiently, work will be commenced in prolonging these big mains to the face of the coffer dam. The smaller drains will be laid into the larger ones, and the latter brought out to the gate of the dam. Here a facing of cement will be constructed, and after it is completed the gate can be removed.

With eleven feet of water pressing against the dam, as was the case at extreme high tide this morning, additional leakages are apt to start in the weaker parts of the dam. But the city engineer is not anticipating any permanent trouble from this, as by the use of oakum and clay these vents can be checked before they become serious. Workmen were employed to-day in packing the earth down at the points where leakages developed, and with fine weather the outlook is good for the pushing on of the work.

## CHINESE FESTIVAL.

A Curious Ceremony Now Being Celebrated by Devotees of Joss.

The Chinese are now celebrating the feast of the Shai Yee at 45 Plaquard street with due ceremony. The event is a triennial affair, and is one of the old Chinese religious customs which is closely adhered to wherever the Chinese are to be found in considerable number. The festival commenced yesterday and will continue until Monday night, the last day being one to which special prominence is to be given, for while the bill-of-fare now consists solely of vegetables, on Monday pork, chickens, ducks and other delicacies in the Chinese diet are to be provided.

The feast is of tri-daily occurrence, one taking place morning, noon and evening. The Chinese bring what contributions they can afford, and in order that there will be no attempt at fraud, the names of those giving, together with their collections, adorn the walls of the feasting house. The amounts of the offerings vary considerably, but the only benefit derived therefrom is the distinction received on the honor roll.

The religious services connected with this event take place in the upper part of the building, distinguished priests from San Francisco being here to assist in them. The room in which they are held partakes very much of the Joss houses, the walls being covered with pictures of departed heroes, before whom the Chinese bow-low. Images of the two greatest are to be found in each corner, and by confiding with these the Chinese believe that the mightiest things can be accomplished. There are also numerous other shrines; in fact, the room is too small to hold all the gods, and a shed constructed of rough lumber has been erected on the same lot on which the building stands for the extra accommodation required.

Another attraction in Chinatown at present is the theatre, which is now running full swing.

## MINERS GOING BACK.

Negotiations Which Supt. Paulds Opened Yesterday With Alexandra Men End Dispute.

(Special to the Times.)

Nanaimo, Nov. 29.—Superintendent Paulds yesterday made overtures to the miners at Alexandra which has resulted in a settlement of the question of dispute. Yesterday afternoon a committee met Mr. Paulds, and the original rate, \$1 for stringers, was restored. The Miners' Union was also recognized in this action. Work was resumed to-day.

## TIDAL WAVE.

(Associated Press.)

London, Nov. 29.—A remarkable tidal wave, accompanied by strong winds, has done much damage along the eastern coast of England, from Norfolk to Kent. Rivers have overflowed their banks, dams and sea walls have been invaded and miles of country submerged.

Epidemic of Measles Has Compelled New Westminster Board to Take Step.

(Special to the Times.)

New Westminster, Nov. 29.—The city public schools have been closed for the remainder of the term on account of an epidemic of measles, the attendance having fallen fifty per cent. within a fortnight.

Anyone troubled with boils, pimples, rashes, festering sores, or any chronic or malignant skin disease, should use Burdock Blood Bitters externally and take internally. It will cure where others fail.

Amid scenes of violent disorder, the Belgian Socialists yesterday forced an adjournment of the chamber of deputies owing to the refusal of the government to consider a universal suffrage resolution.

The funeral of Edward F. Chow, the infant child of Mr. and Mrs. John Chow, took place this afternoon from the family residence, 12 Balliol street, at 2.30. Rev. Canon Beaudouin conducted the religious services at the church and grave.

## WILHELMINA'S HAPPY PEOPLE.

The London Times' Brussels correspondent writes on Oct. 2. During the debate on the Queen's speech now in progress in the Dutch Second Chamber, the Socialist challenge of the ministerial statement as to the improved condition of the people has given the Dutch premier an opportunity of bringing forward some interesting facts and figures in support of his assertion. Dr. Kuyper points out, in the first place, that while in 1863 over 12 per cent. of the population were below a certain standard in height, in 1890 only 2 per cent. fell short of this standard; while inversely in 1863 only 23 per cent. exceeded a given average, and in 1890 this proportion had increased to nearly 39 per cent. If the connection between increased stature and economic prosperity appears a little far-fetched, the other arguments brought forward by the premier leave no doubt on the subject of national well-being. Thus he quoted statistics to the Chamber showing that savings banks' deposits had increased sevenfold in the last sixteen years, and this in spite of the fact that private banks had doubled their capital within the same period. Another sure sign of prosperity among the working classes was the notable decrease in the sale of pawn tickets, amounting to 30 per cent. in the last ten years. Imports and exports had more than kept pace with the natural expansion of population, thus denoting an increased purchasing power; the Dutch nation's income had risen from 600,000 to 667,000 in the decade. Putting these facts together there could be no doubt as to the advance in material welfare; and the self-restraint shown by the masses during the recent elections, notwithstanding the fierce rivalry of party feeling, spoke well for the moral tone of the Dutch nation. Perhaps this tribute gains in weight from the fact that it was from the lips of an unbending Calvinist, and that the improvement referred to was manifested under a Liberal government, which, with the exception of four years, has held office uninterruptedly during the periods referred to.
